

# ***Brain Recovery And Individualized Neurostimulation (BRAIN) Trial***

**UCLA**

## ***Do you still have symptoms after your concussion?***

We are studying the benefits of personalized brain stimulation for chronic symptoms after a concussion or mild traumatic brain injury.

### **WHO CAN PARTICIPATE?**

- Anyone between 18-65 years old AND is
- With symptoms after a concussion or mild traumatic brain injury 3-12 months ago
- Fluent in English

### **WHAT WILL I BE DOING?**

- MRIs of the brain to locate a target area for stimulation and track changes after
- Brain stimulation treatments to the target area
- Questionnaires to see how the stimulation is working

### **WHEN AND WHERE WILL THIS HAPPEN?**

- Participation will occur over the course of a few months, 14 visits in total, on the UCLA Westwood Campus.

### **WILL I BE COMPENSATED?**

- You will be compensated up to \$565 for participation and an Oura Ring with 80-90% study completion.

### **I'M INTERESTED, WHAT'S NEXT?**

- If you are interested or have questions, contact the team: phone (818) 392-4614 or email [BickartLab@gmail.com](mailto:BickartLab@gmail.com).
